

HISTORY & FOLKLORE

From Dayton Times-Herald, April 26, 1962 –

Herman Payne pounds the final fragments of the old Sterling buildings at Main and Bryan. The site will be part of the parking area of the new Dayton shopping center, visible in the background. Cotton’s Barber Shop is already moved in, and the others are in the process of setting up fixtures and moving in stock. As soon as Thomas Berry vacates the old Western Auto building, that too will be demolished. The Berrys were busy this week moving stock into their beautiful new store.

From Dayton Times-Herald, April 26, 1962 –

Butch Bean gets a high-powered piggyback ride from Carol Ann Martin. Carol Ann was visiting in Dayton Saturday from the Baytown home of her parents, Raymond and Ramona Martin. Butch’s parents, Buddy and Jean Bean, discovered the next day that he was coming down with the mumps, so he got the ride just in time.

From The Liberty Gazette, March 3, 1977 –

Agricultural Briefs: Odor Complaints Must Be Valid

Valid information is needed to back up complaints about odors from livestock and poultry feeding operations, says an agricultural engineer with the Texas Agricultural Extension Service.

From The Daytonite, Thurs., Aug. 9, 1917 –

Priscilla Club

Mrs. J.F. Matthews was hostess at the meeting of the Priscilla Club last Wednesday afternoon. Quite a number were present to enjoy Mrs. Matthews’ hospitality even though the weather was extremely warm.

The Vice-Pres. called the Club to order for a short business session after which the hostess, assisted by Mrs. Hopkins and Miss Lizzie Eason, served her refreshments.

The Club was pleased to have as guests Mrs. Learned, Misses Lizzie Eason and Alma Belle Dodd.

A very pleasant interruption of the afternoon was a piano solo rendered by Miss Alma Belle Dodd.

At a late hour we bade our hostess good bye to meet with Mrs. J.D. Spear, Aug. 15.

Four points to be considered in a valid odor complaint are odor frequency from the alleged source, duration of the odor, odor intensity and odor offensiveness. Odor regulations are being studied by the Texas Air Control Board to determine an easier, more reasonable

way to perfect the present expensive procedures under the nuisance provision of the Texas Clean Air Act.
