NOTICE OF APPLICATION OF ENTERGY TEXAS, INC. FOR AUTHORITY TO RECONCILE FUEL AND PURCHASED POWER COSTS

On September 25, 2026, Entergy Texas, Inc. ("Entergy Texas") filed an Application with the Public Utility Commission of Texas ("Commission") to reconcile its eligible fuel and purchased power costs incurred during the period of April 1, 2024 to March 31, 2026 ("Reconciliation Period"). This filing was made pursuant to Section 36.203 of the Texas Utilities Code and 16 Texas Administrative Code § 25.236. The Commission has assigned Docket No. 60301 to the Application.

In its Application, Entergy Texas seeks to reconcile approximately \$1.23 billion of fuel and purchased power expenses incurred during the Reconciliation Period to generate and purchase electric energy for its retail customers. In this reconciliation proceeding ETI seeks Commission review of Entergy Texas' eligible fuel and purchased power expenses incurred during the Reconciliation Period and a determination they were reasonable and necessary to serve retail customers.

Entergy Texas's over-recovery balance for the Reconciliation Period totals approximately \$90 million, which includes interest expense on the over-recovered amounts. Entergy Texas does not seek to implement a fuel-related refund or surcharge of its eligible fuel costs in this case. Entergy Texas proposes to roll any ending fuel balance resulting from this proceeding forward to serve as the beginning balance for the next reconciliation period.

All customers and classes of customers receiving retail electric service from Entergy Texas whose electric service rates include charges pursuant to Rate Schedule FF (fixed fuel factor) will be affected by the Application. This Application has no effect on Entergy Texas' non-fuel rates.
