## Camp Invention coming to Liberty, Dayton this summer

LIBERTY - Camp Invention®, a nationally recognized, nonprofit summer enrichment program, is coming to the following locations:

**Liberty:** Liberty Elementary School the week of July 6 - July 10.

**Dayton:** Kimmie Brown Elementary School the week of July 6 - July 10.

Each year, the program features new curricula inspired by some of our nation's most world-changing inventors – the National Inventors Hall of Fame Inductees. This year's Spark program encourages chil-

dren to be confident in their ideas and explore their innovativeness through hands-on activities including:

- **Space Morphers™:** Kids build a DIY rocket and launch an epic mission to transform a new planet's atmosphere, terrain and ecosystem. After a high-energy Rover Race to collect samples and data, they grow dazzling crystal trees and hatch a mysterious animal egg in a Space Lab.

- **Make Waves™:** Campers ride the waves of entrepreneurship and invention! Inspired by a surfer's journey, they create proto-

types, pitch their innovative products to hook investors and build a billboard boat to set sail and "make waves" in the market.

- **Fur-ensics™:** Kids sharpen their animal detective skills with Cap E. Bara and a fleet of robotic capybaras. They investigate a trail of footprints, collect bits of fluffy fur and examine suspicious splatters before forensically analyzing evidence that has a surprising twist.

- **The Infringers™:** Campers use their invention superpowers to solve challenges in their community

and around the world. They miniaturize top-secret innovations, safeguard their designs using cryptography and protect their intellectual property from the Infringers.

All local Camp Invention programs are facilitated and taught by qualified educators who reside and teach in the community. Camp Invention serves 147,000 students every year and partners with more than 2,600 schools and districts across the nation.
